

Dynamic Technologies offers a diverse range of digital solutions, cloud services and related technologies, made available through our group companies.

“If you can dream it, we can do it.”

WE ARE DYNAMIC [our vision]

Established in 1999, our evolution from a start-up with two founders to a group over 1 100 staff strong and 12 group companies has been realised through a strategy of acquisitive and organic growth, utilising a model that retains the original structure of incoming firms. Each group company has access to a range of shared business services, finance and staffing solutions, while cross-purpose value allows group companies to leverage growth from one another. In this way, we build companies, develop people and provide our clients with new areas of technological expertise.

WE ARE DIGITAL [our technology]

We offer a boutique service with capacity and scale.

OUR FLEXIBLE ENGAGEMENT MODEL

WE ARE DIVERSE [our creativity]

The quality of our people talks to our growth trajectory.

We are committed to a culture of inclusion in our business practices, relationships and attitudes, to create a diverse workplace where the art of the possible just happens.

SNAP SHOT
